CERTIFIED

Solutions Developer

Windows Store Apps
Using C#

EMPLOYMENT HISTORY

Senior Software Developer, DecisionGrid Inc, Austin, TX 2014

- Migrating a Ruby on Rails app to an EmberJS single-page application
- Lead and mentored other team members on JavaScript and EmberJS best practices
- Implemented Facebook integration and querying into Ember Data
- Worked on migrating HAML and JavaScript to Handlebars, CoffeeScript, and SCSS/Sass

Senior Javascript/Ajax/HTML/Mobile Developer, Prometheus, Seattle, WA — 2013 - 2014

- Leading mobile application development for a cross-platform JavaScript based solution using AngularJS, KendoUI and LESS
- Develop and maintain C# Windows Store App
- Support and assist other front-end developers
- Create and implement modern web development workflows complete with unit testing on every build
- Maintain native applications for iOS and Android
- Created and promoted JavaScript unit testing in Mocha using Grunt and PhantomJS

Interactive Media Developer, The Knot, Austin, TX — 2007 - 2013

- Setting the direction of front-end development by evaluating the latest technologies
- Developing responsive web design sites using HTML5, JavaScript and CSS3 with an eye for graceful fallback for older browsers
- Training other front-end developers on implementation issues
- Developing and maintaining iOS projects
- Single handedly developed the only Android app at the time
- Consultant on new and existing projects to forecast or troubleshoot implementation issues
- Part of the first two internal incubator teams working on cloud based applications running on Python and using RavenDB and MongoDB

Web Developer and Graphic Artist, GWCA, Austin, TX — 2005 - 2006

- Develop, design, and maintain intranet and Internet PHP/MySQL based websites using Drupal for event management tools, accounting and ecommerce store.
- Design print material and advertisements for national publications.
- Manage pay-per-click advertising campaigns and conversion metrics tracking

Flash Developer, EnterMediaNow, Austin, TX— 2004 - 2005

- Developed client-specific marketing materials.
- Responsible for translating customer's designs into Flash content for viewing on the Internet, as well as CD deliverables.
- Developed email advertising materials.

XML/Web Developer, Conformative Systems, Austin, TX — 2004 - 2005

- Developed a GUI interface to administer a hardware application using XML/XSL transformations and JavaScript.
- Developed Flash demos for presentation of the aforementioned hardware.

Flash Developer, Realvue Simulation Technologies, Austin, TX — 2002 - 2003

- Lead Flash Developer for our Xerox project showcasing the Digital Color Book process and iGen3 printer.
- Designed front-end interfaces for the simulation launchers and deployment for Dell, HP, Textron and Applied Materials.
- Converted photography into vector graphics for use in training simulation.
- Compiled the graphics for Windows and Solaris simulations from video and hand drawn interfaces.
